

Vectren Energy Delivery of Ohio, Inc.

1300 Experiment Farm Road

Troy, Ohio 45373

December 21, 2018

City of Washington Court House  
105 N. Main St.  
Washington Court House, OH 43160

To Whom It May Concern:

The Department of Transportation (DOT) regulations require natural gas system operators to conduct leak surveys on all piping including underground mains, services, & exposed piping up to the outlet of the gas meter. Vectren wanted to inform your office that we have contracted Heath Consultants to complete this survey in your area in the near future on underground piping and inside piping, if the meter is inside the residence. The Heath Consultants Technician will have a visible picture ID and be in a company uniform and have a Vectren Contact phone number that the customer can call for verification. Heath technicians do use personal vehicles so the community should not be alarmed if they don't see a Vectren vehicle. The inspections inside will only take about 5 minutes.

If your office has any question please feel free to give me a call. Thank you for your advanced cooperation.

Rob Weethee
